

## ForeFlight and the IPAD ( VFR OPS )

ForeFlight is the most popular of the currently available flight planning applications for the iPhone/iPad. This presentation will cover the options users have for ForeFlight subscriptions, Apple devices and External GPS/ADS-B solutions. It will also cover features of ForeFlight which will help you with your pre-flight planning and in-flight situational awareness. Wi-fi is available at the venue, so bring your device(s), follow along with the presentation and get hands-on experience. Very valuable training!

**Directions:** Reno Stead Airport Terminal Building Conference Room

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
